- PHP
- PHP Extension Development in C
- PhpStorm
- Plesk
- Point of Sale unit deinstallation / installation / troubleshooting / repair (CPUs, cash drawers, pole displays, scanners / scales, receipt printers, cash / change acceptors, change mechanism)
- Proxmox Virtual Environment / hypervisor
- PXE / bootp
- Python
- QEMU-based virtualization
- QuickBooks Online
- Rack and stack
- Rack-mounted Servers
- Rack construction and installation
- RDP
- Red Hat Enterprise Linux
- REDCap
- REDCap External Module Development
- REDCap Hook development
- Redundant Power Routing
- Retail shopping lane deinstallation / breakdown
- Ring security products (installer certification pending)
- Routers
- RPM-based package management
- S3-compatible storage
- Safari Extension Development
- SAFE Agreements
- Scrum master duties
- Seafile
- Self-checkout unit installation
- Sencha
- SendGrid
- sendmail
- Server Rack installation / deinstallation
- SFTP
- SharePoint
- Shibboleth authentication
- Shopify
- Single-Sign On authentication
- SIP
- SIP Trunking
- Slack
- SMS
- SMS campaign registration
- Software Architecture
- Software Defect Testing
- Software Defect Tracking
- Software Internationalization/Localization
- SQL
- SQLite

Skills List (continued)

- SSH
- SSL
- Startup Founding and Launch
- Startup Investment
- Startup Valuation techniques
- Supermicro Blade Chassis
- Supermicro Blade Servers
- Supermicro Rack Mount Servers
- Surface mount jacks
- Swift-compatible storage
- TCP/IP
- Technical Leadership
- Technical Writing
- Test Plan Development
- Test-Driven Development
- Theia (online editor)
- TP-Link Omada products (entire line – installation / configuration)
- Toshiba (formerly IBM) Point of Sale equipment (CPU, cash drawer, receipt printers, scanners / scales, pole displays, keypads)
- Twisted-pair termination / testing / tracing
- TypeScript
- Ubuntu Linux
- UFW
- Uninterruptable Power Supplies
- Unit Testing
- Universal Service Fund (USF) reporting
- Usability principles
- VirtualBox
- Visual Slick Edit
- Visual Studio Code
- Visual Studio Community
- Voice-over-IP (VoIP) billing
- Voice-over-IP (VoIP) phone deployment / configuration
- Voice-over-IP (VoIP) regulatory compliance
- VPN concept
- Wall Fishes / Jack Mounting
- Wasabi (online storage)
- Webex
- Webmin
- WHMCS
- WHMCS Extension development
- Windows 10
- Windows 11
- Windows 8.1
- Windows application development
- Windows Sandbox configuration
- Windows Server 2009
- Windows Server 2015
- Winget
- Wireless (Wi-Fi) Access Points
- Wireless (Wi-Fi) Coverage Optimization
- Wireless (Wi-Fi) Routers
- Wix.com
- WordPress
- Xero
- xdebug
- XML
- XSL
- Yealink products (entire line – installation / configuration)
- Zoho Suite
- Zoom
